

Install, Configure, and Use Codex Desktop App

1) verify the installation of VS Code, Git, Python, and Node js

```
PowerShell 7.4.14
PS C:\Users\redmanderrick> code --version
1.123.0
6a44c352bd24569c417e530095901b649960f9f8
x64
PS C:\Users\redmanderrick> python --version
Python 3.14.5
PS C:\Users\redmanderrick> node --version
v24.16.0
PS C:\Users\redmanderrick> git --version
git version 2.54.0.windows.1
PS C:\Users\redmanderrick>
```

2) Instruct Codex to create a program for you
